## AUTOS SENT TO RESCUE WELL KNOWN CITIZENS

**Missionaries Located at Victoria, Mexico, Harassed by Cruel Mexican Warriors and Threatened by Famine, are Objects of Rescue Party Sent Out by Uncle Sam—Brothers and Other Relatives in This City Anxiously Await News From Loved Ones.**

Several citizens who are well known in this city, and who have a number of relatives here, have been in grave danger in the trouble zone in Mexico for some little time, and their relatives here are now anxiously awaiting a report from them.

The last letter received was last week, and it was dated October 21, but since the letter was written there has been considerable fighting near where they have been located, with the result that two automobiles were dispatched from Matamoros, on December 2nd, to rescue the endangered missionaries of the Friends church at Victoria, Mexico, where the civil war has caused a famine, with many in danger of succumbing to the ravages of hunger.

According to a dispatch sent out from Brownsville under date of De-

cember 2nd and forwarded to relatives in this city, the American Consul, Jesse H. Johnson, at Matamoros, who sent the automobiles, it would require four days to make the trip and land the missionaries over the border.

The missionaries are: Mr. and Mrs. R. S. Tice, Miss Emma Reeder, Mrs. Ora Brannen, Miss Nancy L. Lee, Miss Mary Pickett and C. E. Roberts, who have made arrangements to turn their schools over to native teachers and depart at once when the automobiles arrived for them.

Miss Emma Reeder, Mrs. Tice and Mrs. Ora Brannen are sisters of Mr. Levi and Mr. Sherman Reeder, of this city, and have many close friends here, having made this city their home until a few years ago.

All efforts made by the missionaries' relatives here to get word to them, either by registered mail or otherwise, has proven of no avail, and for weeks their welfare has been a matter of grave concern to their relatives here and elsewhere.

It is now believed that the rescue party sent under the protection of Uncle Sam will be successful, and that within a short time word of their safe delivery will be received in this city.

## WILL NAME COMMITTEE BUT REFUSES MESSAGE

**White House Offices Stormed by Delegation from American Woman's Suffrage Association, Who Urged Wilson to Appoint Congressional Committee and Send Special Message to Congress.**

## ORGANIC RECOGNITION OF POLICIES NECESSARY

**Ladies Politely Informed That Without Such Recognition He Couldn't Act, as He Has Never Yet and Never Will Urge Congress to Submit to His Private Views.**

By Associated Press.

Washington, D. C., December 8.—President Wilson today told a delegation from the National American Woman's Suffrage Association that he favored a standing Woman's Suffrage Committee in the House of Representatives, but he denied the request that he send a special message to Congress urging the reform.

Marching by twos and fours with banners aloft, the Suffragists braved the chill winds of a raw day to storm the White House offices. Dr. Anna Howard Shaw, president of the association, summarized briefly their appeal to the President to assist the movement either by sending a special message to Congress, by including reference to Suffrage in any general message he might deliver, or by using his influence to have a special committee of the House appointed to consider the subject. "I want you ladies, if possible," said the President, "if I can make it clear to you, to realize just what my present situation is. I set myself this very strict rule when I was governor of New Jersey, and have followed it as President and shall follow it as President; that I am not at liberty to urge upon Congress in messages, policies which have not had the organic recognition of those for whom I am spokesman. In other words, I have not yet presented to any Legislature my private views on any subject and I never shall, because I conceive that to be a part of the whole process of government that I shall be spokesman for somebody not for myself."

Candido Aguilar, is expected within a few days somewhere north of Tuxpam. War officials report a general advance from Tuxpam of a column of Federals said to number 1800 men. The Rebels are known to be concentrated near the town of Tamiahua, north of Tuxpam, and appear to be preparing to resist the Federals with 3000 men. "All persons guilty of spreading false and alarming reports in Mexico are to be drafted into the army and sent to Quintana Roo or Sonora," according to a notice prominently displayed in the Government newspapers today.

Villa has been on the alert for a possible attack by Federals and his patrol of the 225 miles from Juarez to Chihuahua has been in the nature of precaution.

## WOULD APPLY THE FOOD LAW

Washington, Dec. 8.—Reorganization of the department of agriculture, foreshadowed in Secretary Houston's first annual report, which has been presented to President Wilson.

A plan to be submitted to congress in the fiscal estimates for 1916 proposes to carry out the work of the department in five or six main groups, such as research, state relations, rural organization, forest service, weather and regulation. Such a plan, Secretary Houston believes, will promote co-ordination.

Plans for redistributing the country for the enforcement of the pure food law are announced, and the secretary declares his intention to ask for authority to prepare amendments to the pure food law, to improve the food supply, protect the public health and promote uniformity in food legislation.

Free distribution of seeds by congressmen should be discontinued, the secretary recommends. He would continue in its stead a constructive work in securing and distributing new seeds and plants among farmers.

Speaking of farm credit, the secretary says that what is needed is the creation of conditions and machinery which shall enable the farmer to secure money at the same rates as those that prevail for other classes and for other sections.

The department believes that intelligent help to women in matters of home management will contribute directly to the agricultural success of the farm. It purposes, therefore, to ask congress for means and authority to make more complete studies of domestic conditions on the farm, to experiment with labor-saving devices and methods and to study completely the question of practical sanitation and hygienic protection for the farm family.

As to federal aid for good roads, the secretary says the federal government should deal with the state as the lowest unit, through an expert highway commissioner as its agency. The plan should provide for maintenance as well as construction.

## CARDINAL GIBBONS OUTLINES HIS VIEWS

Baltimore, Dec. 8.—"I do not wish to see the day when the church will invoke and receive government aid to build our churches or subsidize our clergy," said Cardinal Gibbons in a sermon at the cathedral here. "For then the civil rulers might dictate the doctrines we were to preach." The cardinal said that whenever any encroachment on the sacred rights of civil and religious liberty have been made by professing members of the church, "these wrongs, far from being perpetrated with her sanction, were committed in palpable violation of her authority."

## INCREASED TRADE WITH JAPANESE

By Associated Press.

Tokio, December 8.—Negotiations are under way between the Japanese Foreign Office and Thomas Sammons, United States Consul-General at Yokohama, for an informal understanding whereby Pacific coast products may be introduced into Japan in large quantities as the result of a proposed lowering of Japan's tariff. These negotiations are closely allied with the study by both countries of the effect of the opening of the Panama Canal on commerce. If Japan accords reductions to Pacific coast products, especially in canned goods, California wines, nuts, dried fruits, wheat, flour, and lumber, Japan will expect some sort of reciprocal treatment. For instance, Japanese merchants are especially desirous of obtaining more favorable schedules from the United States on silk fabrics and it was understood here that the new tariff bill provided for some reduction.

With Japan looking forward to a big extension in trade, both in North and South America, the investigation here indicates that the United States on her part should be benefited greatly by the opening of the Canal in an increased trade to Japan and its colonies. The exportation of products from the United States to Japan is augmenting more quickly than from other parts of the world. The principal products, including raw cotton, metals, machinery, iron and steel products and kerosene come to Japan chiefly from the Atlantic coast by railroad and ocean, and the Panama waterway with reduced freight rates and reduced time of transit should enlarge the markets considerably.

## INTOXICATION FULLY DEFINED

Liquor License Boards Issue Statement Regarding the Sale of Liquor to Those addicted to the Drink Habit, and Also Defines What is Meant by Intoxication.

The County Liquor Licensing Boards throughout the state this week issued the following statement in part in regard to the opinions that shall govern the sale of intoxicating liquors to intoxicated persons or to persons in the habit of becoming intoxicated:

Section 13198 of the General Code of Ohio reads as follows:

"Whoever buys intoxicating liquor for or sells, or furnishes it to a person who is intoxicated, or in the habit of getting intoxicated, unless given by a physician in the regular line of his practice, shall be fined not less than ten dollars nor more than one hundred dollars, or imprisoned not less than ten days nor more than thirty days, or both."

While there is much difference of opinion as to what constitutes a state of intoxication, and the habit of getting intoxicated, as expressed in the following section of the General Code, it is well to observe what has been advised and decreed by the courts as correct definitions of these terms. The charge of Judge Nash, which is frequently quoted by judges of the common pleas courts, is given below:

"A person may be said to be intoxicated when he is so much under the influence of intoxicating liquor that he is unfitted and disqualified from attending to and performing the usual duties and business of life. Intoxicating liquors affect different individuals in different ways. One individual it renders dull and stupid, so that while he may possess the powers of locomotion, his intellect is so stupefied that he is wholly incapable of attending to any matter of business; another is rendered excited and noisy, and for the time positively insane, though he may be physically stronger and more active than when sober. In these instances the effect is upon the mind, disqualifying the man intellectually, for being fit to be entrusted with the performance of any important business. On the other hand, another person will exhibit intoxication by losing all control over his muscular action, so that he will be unable to walk or move, while his mind may be tolerably clear, and capable of comprehending a matter of business. Still the man is physically disqualified by the intoxication from attending to his ordinary business. There are other persons who are mentally and physically able to drink large amounts of intoxicating liquors without losing their mental ability, or all control over their muscular actions; and yet the effort to maintain this self-control is so great that they are wholly incapable of attending to any business, or performing any duty resting upon them as men and members of society. There are degrees of intoxication. In order to be intoxicated, it is not necessary that a person should be dead drunk—wholly without the ability to think or move; it is enough if he is so far affected as to render him unfit and disqualified for the performance of ordinary callings—so affected that it would be unsafe to trust him with the driving of a team, the care of a mill, the making of a contract or the sale of property; with the steering of a steamboat, with the prescribing as a physician, or the giving advice as a lawyer. A person so affected by intoxicating liquor is truly in a state of intoxication—can truly be said to be intoxicated.

## Hartman Theater

Attractions Week of December 15.

"Oh! Oh! Delphine!" the delightful musical comedy which has enchanted thousands of theatergoers in the last year, comes to the Hartman Theater, Columbus, Thursday, Friday and Saturday, Dec. 18-19-20th, with a matinee Saturday. Unlike most musical comedies "Oh! Oh! Delphine" has a perfectly connected story fully interspersed with lyrics and lines well punched with wit and humor. It was written by C. M. S. McLellan, who took his theme from the rollicking French farce "Villa Primrose," which he adapted, while the music was composed by Ivan Caryll. The story concerns the escapades of Victor Jolibeau, an artist with a predilection for good-looking models and a man of excellent judgment, both in the connubial and artistic sense, who has been divorced by his charming wife; and Alphonse Bouchette, who has also broken the bonds that bind, and each marries the other's former wife.

Victor brings his models, a sextet of physical perfections, to the Hotel Beau Rivage in Brest, France. Delphine, his former wife, follows. Then appears Alphonse. Victor has kept his divorce a secret from a rich uncle and when the uncle appears it de-

volves on all concerned to preserve the secrecy. Could anybody want better complications than must arise out of such a combination.

## FIVE GREATEST MINERAL STATES

Pennsylvania, Ohio, Illinois and West Virginia are credited with over 40 per cent of the total mineral production of the United States. Pennsylvania outranks all other States, producing nearly 25 per cent of the total. West Virginia comes second Illinois third, and Ohio fourth. California, with no standing as a producer of pig iron, iron ore, or coal, stands fifth in rank among the states, owing to its heavy production of gold and petroleum.

## Municipal Christmas Tree

Why can't Washington be among the first of the smaller cities of the land to join in with that great movement, which already includes many of the larger cities, and have a municipal Christmas tree?

San Francisco was the first to discover the municipal Christmas tree, Jacob A. Riis tells us, and it proved to be such a tremendous success that New York and other great cities of the land, quick to realize the possibilities for good, followed the example of the Golden Gate City.

Everywhere the municipal Christmas tree has proved itself to be not only the ideal means of dispensing charities in the manner which carries with it the most of good, but also one of the greatest forces of the age for a revival of that true Christ an spirit which should reign supreme at Christmas time.

The Madison Square Garden Municipal Christmas tree, —seventy-five feet in height—ablaze with its thousands of lights, the religious ceremonies, the singing of Christmas carols by marching bands of young people, have done more to redeem New York from the wild excesses of the holiday season, than anything else.

Thousands of rich people give lavishly at holiday time—give with a free hand, promiscuously, to charities—but in so doing they never are satisfied that they have discharged their whole duty.

Why? Because they have really done nothing to arouse the spirit which should prevail. They have not themselves given in the proper spirit and those who receive charity at the hands of the rich are embittered rather than made to feel the real spirit of Christmas.

Giving to the needy at Christmas time is well enough as far as it goes, but it appeals only to the material side. The soul of the poor and unfortunate hungers as well as the body.

If people could give of their happiness rather than of their abundant store of material things, the poor would be made to feel that there was a Christmas time—a time of peace on earth good will to men.

Because the municipal Christmas and the municipal Christmas tree makes one big family circle of all, because all alike are greeted through the eye and the ear by the same rights and the same songs, because the spirit of the occasion is abroad in all the air and knows no distinction of caste or creed, envelopes rich and poor alike in its holy influence, these community Christmas occasions are fast displacing the old plan which gave only of the material.

Washington each year, according to the standard fast being discarded, has done nobly by the unfortunates. Clubs, lodges, churches and individuals have risen equal to the known standard, but now that a new and proven superior standard is on the way, why can not this city go ahead of its class in the march of progress and join the big cities with a municipal Christmas tree all of her own.

If the history of other cities is to be taken as a guide, the movement will probably be inaugurated by the good women of Washington.

The women's clubs have been the greatest initiative force in almost every city where the plan has been adopted.

The larger organizations soon fall into line and put the proposal through, but the good women, in their organizations, are generally the prime movers.

Think of it, good women of Washington. Can you launch the movement here in Washington for a Municipal Christmas which will add its volume to that great Christmas chorus which is sweeping over the nation?

Can you, good women and men of Washington be the means of causing the spirit which led the wise men to the manger in Bethlehem near two thousand years ago, to envelope and hold this community in its grasp?

Can you launch a movement which will give to all alike the Christmas spirit?

Try it. It is a great opportunity.

If the time is too short this year then begin early enough next year.

Sooner or later Washington must join this great movement of the age, and why not soon, rather than late?

Why not a municipal Christmas tree for Washington?

## Efficient Country Minister Is a Community Engineer

By Rev. G. FREDERICK WELLS of Tynningham, Mass., Member of the Conference of Rural Community Leaders.

A COMMUNITY engineer is a person who gets community leaders and workers to solve community problems.

The country minister in fulfilling the functions of a community engineer concentrates the combined force of his work as preacher, pastor and administrator.

The practical questions which confront the pastor in his every day relations to his church and constituency compel him to be proficient as a COMMUNITY ENGINEER or a moral and social failure.

THE PRINCIPLES OF SUCCESSFUL AND TRUE ENGINEERING ARE AVAILABLE, AND FROM THEM THE PASTOR MAY FIND SUFFICIENT GUIDANCE FOR THE SOLUTION OF ALL PRESENT PROBLEMS.

### NO FORCE HERE.

There seems to be a general opinion in every part of the country that Mrs. Pankhurst did not make much of an impression during her visit which ended about three weeks ago. It seems to be the general opinion of editors that she did not have as enthusiastic a reception as on the occasion of her former visit.

Naturally enough, this is ascribed to the militant methods which have been aggravated in recent years. The conclusion is that America does not approve of such tactics, and showed its disapproval by refusing to make much of a fuss over Mrs. Pankhurst.

This conclusion is partly right and partly wrong. It is right in that nobody in America would think of its being necessary to attempt anything of the sort in the suffrage fight for votes in this country. It is wrong in so far as it assumes that America disapproves of all militancy. The reception of Mrs. Pankhurst in Dayton and in every city where she spoke indicated plainly that there was strong sympathy for the suffrage cause in England, and that many believed militant methods were justifiable there.

But on the whole there is no escaping the conclusion that the people of the United States will never sanction force. Force, as a means for procuring any sort of a change in government, is well out of date in this country. When the women are able to convince a majority of the men that they want to vote, and that they ought to vote, they will have the ballot. It will never be necessary for them to do anything in the way of violence to prove their desire for suffrage.—Dayton News.

## VILLA PROCEEDS VERY CAUTIOUSLY

Juarez, Mexico, Dec. 8.—Still fortifying his telegraph and railroad communication with Juarez against a possible attack by federals, General Francisco Villa, with his rebel army, remains near Sauz, about 30 miles north of Chihuahua. Villa said he would delay his entry into the capital until he was confident he was not going to be cut off from the north.

The idea prevailed that some of General Salvador Mercado's federal troops, after evacuating Chihuahua, possibly might have left the main body and swung around to the north and west, in an attempt to throw a force between Villa and his base at Juarez. Should Villa lose his communication with Juarez he would be isolated in Chihuahua, and thus be in the position of the federals before they evacuated that city. Direct telegraphic communication with Villa's headquarters, however, showed that no federals had been seen, and Villa's slow progress toward the state capital was merely precautionary.

## INTERESTING BITS OF NEWS

(John E. M. Kerr.)

Prof. Scott, of the U. of M., in an address before the National Council of Teachers said that because newspapers are the most powerful and pervasive influence of our day and nation, every high school should devote time for instructing juniors and seniors in this interesting subject. Slang, violations of grammar, split infinitives, dangling participles can and should be corrected. He proposed a society for the prevention of cruelty to the English language and that a system of fines be inflicted for gross offenses against the language.

One of the sights to Americans, visiting Washington is the equipage of the wife of the Russian Ambassador. She is an American and goes out either with her fine horses or in an automobile with a Cossack on the box beside the driver or chauffeur. He is dressed some days in brown, some days in green or in white with a brown turban.

Reports of the agricultural productivity of the Philippines include the names of things grown in Agusan. For example 586 altmans have been grown. A dictionary after long search reveals the fact that these are muskmelons. Bananas and beans are familiar enough but the list of C's is amusing—cabbage, camotes, cassava, coconuts, corn and cowpeas.

Next to egg plants comes gabi. Ginger and mustard, mangoes and okra, both dry and green papaya, papaya and peanuts, peachay and pine apples, radishes and rozelle are interesting varieties. With tomatoes and turnips we are on familiar ground as also with sugar cane and water melons, but what of sitas and ubi?

## A GLIMPSE BACK THROUGH YEARS

(By John E. M. Kerr.)

August 1, 1872.

A grand battle came off at the "Sun-Flower Beer Garden" last Friday between a party of white and colored men. Knives, glasses, chairs, billiard balls and other weapons were freely and effectively used and much blood flowed.

Mr. Joe Wilson is putting up a good substantial frame house of ten rooms on the west end of Broad street for a residence.

First Train: To the great surprise of all the citizens, the first train on the Columbus and Maysville railroad passed through our neighborhood on Tuesday. Great effort was made to flag it down but there was too much steam on; it ran through. The cream of the joke was that our friend John Cisna, came into town with a steam engine for a grain thresher and stopped on the high ground at the end of the street, concluded to let the steam on the whistle. This dreadfully frightened the oxen, who pulled the engine, who ran through the street at full speed, the whistle blowing its level best, and everybody, big and little, running in surprise to see what the matter was. It is said to have been the best free show that has visited Staunton since it was a town.

## M'GUIRE RETURNS

New York, Dec. 8.—James K. M'Guire, ex-mayor of Syracuse and one-time Democratic state chairman, and who has returned from the West Indies, issued a statement in which he attributed the evidence against him which led to his indictment on a charge of soliciting a campaign contribution from a corporation, to a quarrel between the asphalt and oil interests and characterized the charges against him as a "desperate attempt of oil men to destroy me—a 'frame-up' despicable in its object and cruel in its purpose."

## ILLEGAL VOTING

Steuenville, O., Dec. 8.—Local option leaders gave out a statement in which they said they will file affidavits against two members of the county election board for advising precinct boards to receive illegal votes. Affidavits will also be filed against Ming Junction election officers for receiving illegal votes, they said.

# OLD OFFENDER ARRESTED FOR CRUELTY TO ANIMALS

**"Gopher" Smith Again Sentenced to Work House for Inhuman Treatment of Fine Dog Owned by Dr. L. L. Brock—Has Caused Police Much Annoyance, and at One Time Escaped from the Xenia Work House.**

"Gopher" Smith, who has caused the police a great deal of trouble and who escaped from the Xenia work house and was absent for several weeks before captured in this city and taken back to serve his unfinished sentence, is again in trouble. This time Smith was arrested upon a charge of cruelty to animals, the charge being preferred against Smith by Dr. L. L. Brock, after the fellow had cruelly mistreated a valuable dog owned by Dr. Brock. The dog, which is only eight months old, was out in front of Dr. Brock's office when "Gopher" and one or two companions came along

the sidewalk. Smith is alleged to have called the dog to him, and then seizing it so that it could not bite him, beat it upon the sidewalk in a most inhuman manner severely injuring the pup. Dr. Brock immediately filed an affidavit against Smith and he was placed under arrest and thrown in the county jail to await a hearing. When he was arraigned before Mayor Smith he first entered a plea of not guilty, but later changed this to a plea of guilty, whereupon he was fined \$100 and the cost and ordered committed to the Xenia work house until the fine was paid. He was given until Monday afternoon to raise the amount of the fine or be returned to the Xenia work house, and it is stated that he would not be able to furnish the amount. Smith was last sentenced to the work house for bootlegging. He has been a source of annoyance to the police for a long time, and had been ordered to conduct himself in a proper manner or stand ready to return to the work house.

## MEMORIAL SERVICE OF UNUSUAL BEAUTY

Of great beauty and impressiveness was the "Lodge of Sorrow", the annual Elks' memorial service, held in the main hall of the Elks' club rooms Sunday afternoon. Considering the inclement day the attendance of Elks and their friends was large. Rev. F. E. Ross gave the invocation and Mr. Glenn Rogers, exalted ruler, led the officers and members of the lodge in the opening ceremonies. The Elks' Ritual memorial service held in tenderest remembrance the honored dead, as did the fine address delivered by Mr. James N. Linton, of the Columbus lodge No. 37. The address also embodied loyal tribute to the order and its underlying principles of charity and philanthropy. The music was in keeping with the services and very beautiful. Mrs. Arthur Burgett sang, "Be Thou With Me", Von Hiller. Miss Jessie Leavell, of Bloomingburg, a soprano solo and Mr. James Kneisley played a violin number, "Nocturne E Flat", Chopin. Mrs. Carl Mallow was the accompanist. Rev. F. E. Ross pronounced the benediction at the close. The deceased Elks honored in memorial, were: D. H. Hare, H. M. Blessing, W. C. Moorman, O. D. Smith, Jr., Jerome Penn, F. C. Marchant, C. F. Parker, D. V. Knight, R. F. White, J. L. Worley, J. D. Kerr, H. D. Purcell, C. G. Leavell, J. S. Knight, Frank Colwell, J. W. Hughey, W. F. Willette, H. D. Kilgore. The memorial service committee included Judge F. G. Carpenter, A. J. Burgett, Wm. J. Smith.

## MISSIONARY PROGRAM AT GRACE CHURCH

The Woman's Home Missionary Society, of Grace Church, presented an interesting thank offering program at Grace Church Sunday night, in place of the usual preaching services. The stormy night was quite a disappointment, preventing many from attending. Owing to the illness of the President, Mrs. W. E. Ireland, Mrs. F. E. Ross, Vice President, presided and Mrs. Harry Rowe assisted in the opening services. Mr. James Kneisley added a fine violin solo and Miss Daisy Cockerill a beautiful contralto solo. The work of the Woman's Home Missionary Society was outlined in a most interesting way by Mrs. D. H. Rowe. Rev. Ross made interesting remarks, impressing the vital problems of Home Missionary work in its relation to the church and the urgency of its being actively taken up. The fire department was called out Sunday afternoon about 2:30 by an alarm from the E. B. Hukill property on East Paint street, the property being occupied by Mrs. McAllister. The alarm was occasioned by paper about a fire becoming ignited, but the small blaze was extinguished before the department arrived. The department encountered some rough street in the long run to the scene of the blaze.

THE CAMPAIGN SONG.  
FAYETTE COUNTY FOR CHRIST  
by  
Rev. F. M. Moore, Bloomingburg, O.  
(Tune: "Battle Hymn of the Republic")

I've seen it on our banners, waving in the wintry air;  
I've heard it at the Throne of Grace in the windows everywhere;  
I heard it at the Throne of Grace in Consecration prayer:  
"Fayette County for Christ."

Chorus:  
Hear the Chorus we are singing,  
Hear the message we are bringing,  
Hear our cheering watchword ringing  
"Fayette county for Christ."

There's a campaign for the Kingdom that is truly county wide;  
The forces are united, and are working side by side;  
The work is moving forward like an overwhelming tide.  
"Fayette County for Christ."  
(Chorus)

They're talking it in Washington, in every shop and store,  
The rural farms and firesides catch the spirit more and more;  
And men are stirred with interest as they've never been before,  
"Fayette County for Christ."  
(Chorus)

The voice of prayer and praise is heard on lips both young and old,  
And men are seeking righteousness, more precious far than gold;  
They've heard the Shepherd calling, and are coming to the fold.  
"Fayette County for Christ."  
(Chorus)

Then be ye of good courage, tho' the end we cannot see—  
The promise of Jehovah is our pledge of victory.  
Oh, What a consummation for a final Jubilee—  
"Fayette County for Christ."  
(Chorus)

The above song, written by Rev. F. M. Moore, of Bloomingburg, has been unanimously adopted as the campaign song for the county-wide religious campaign in this county. The words of the song came to F. M. Moore, of Bloomingburg, in the night, and he arose and wrote them as given above.

## NOTABLE FEAST DAY IN CATHOLIC CHURCH

The feast of the Immaculate Conception was celebrated at St. Columban's church Monday with two masses and very beautiful services conducted by Rev. Father Fogarty. This is the patronal feast of the Catholic church in America, commemorating the day when the immaculate conception was proclaimed from Rome, and is one of the greatest feasts throughout the world. Today also ends the Pope's Jubilee. There was a very large attendance at both masses, and the altars were beautifully decorated with cut flowers and electric lights.

## KNIGHTS ATTEND SPECIAL SERMON

Upon invitation from Rev. Gage, more than 100 members of Confidence Lodge, Knights of Pythias, met at their hall and marched in a body to the Presbyterian church Sunday night, where Rev. Gage delivered the second of a series of sermons on "The Young Man and the World's Work." The sermon was a splendid one and very appropriate for the occasion. Special music was furnished including a solo by Mr. Bowman and some splendid quartette music by Messrs. Bowman, Kibler, Howell and Paul.

## REMARKABLE SALE RED CROSS STAMPS

The members of the Browning Club having the sale of Red Cross stamps in charge, are very much pleased with the number sold Saturday, which was around 2,000 and more stamps will be ordered at once so that the Red Cross nurse may be obtained for this city. The sale of Red Cross stamps in Cincinnati from the most important booth Saturday was 5,000, so that the local sale of stamps indicate that those in charge are hustling.

## TWENTY TAKE THE EXAMINATION

A class of twenty persons tried the teachers' examination which was held at the High School building in this city Saturday, and the result will be made public within the next two weeks. The class was above the average for this time of the year. A little later on a great many more are expected to try the examinations.

## JURY TO REPORT MONDAY MORNING

The October Petit jury has been notified to appear for duty next Monday, December 15th and the cases of Paul Tudor, indicted for burglary and grand larceny, and Leo Brandon, for entering a dwelling house in the night time, are two of the cases to come up for trial. Tudor is the man who was found south of town with a bullet hole in his shoulder, and after he was locked up, a quantity of stolen goods were found near the place where he claims the shot was fired. The goods were identified as those stolen from F. M. Kislings store at Good Hope, the night previous to the time when Tudor was wounded.

## MERCURY TAKES DECIDED DROP

From 46 degrees above zero to less than 20 above is the feat performed by the mercury from nine o'clock Sunday morning to six o'clock Monday morning, and during the interval the wind blew a gale and the snow added to the unpleasantness of the situation. The sudden fall in temperature caused much suffering, and there was a general hanging about the fireside Sunday and Sunday night. Some thermometers registered 10 above zero at an early hour Monday morning.

## GRANTED DIVORCE ON CRUELTY CHARGE

Judge Allen Saturday granted a divorce to Nellie Hudson, from Harry Hudson, upon a charge of gross neglect of duty and extreme cruelty. Control of a minor child was reserved for the present.

## TWO MORE SCHOOLS ARE CONSOLIDATED

The Eber school and sub-district No. 20, located just out of town on the Jeffersonville pike, have been consolidated, and Miss Louise Weaver now teaches the school, which is located at Eber, the school house on the Jeffersonville pike being closed.

The change was brought about by the recent resignation of John Sheeley, who taught the Eber school, and as part of the pupils attending No. 20 were from this city, they were allowed to come to the city schools and the others—seven in all—are taken to and from school each day by Miss Weaver.

This was tried in Chillicothe a few days ago, but proved unsuccessful.

# PROGRESS IN OUR ISLAND POSSESSIONS IS OUTLINED

By Associated Press.

Washington, December 8.—The march of civilization through the Philippines and Porto Rico—the principal American insular possessions—is pictured in the annual report of Brigadier General Frank H. McIntyre, Chief of the Bureau of Insular Affairs.

One most interesting feature deals with the effect upon the Insular Possessions of the new tariff act. For the Philippines the limitation upon the quantity of sugar and tobacco that may be exported to the United States has been removed. Another measure of relief to Philippine business permits exports to United States by transshipment whereas the exporter had formerly been limited to direct shipments. Export duties upon Philippine products which deprive the American manufacturer of Manila Hemp of a differential were abolished. The income tax provisions of the new tariff act were extended to the Philippines but with the proviso that it should be collected by Philippine officers and belong to the Philippine Government.

General McIntyre regrets the failure of Congress to enact a law permitting the use of foreign material

to the amount of 50 per cent in Philippine products entitled to free admission to the United States. He says this would have given a much desired stimulus to the embroidery and lace industry in the islands, which through the schools is being developed.

Exports to the United States last year amounted to \$19,848,885 and were 57 per cent of the total as compared with 43 per cent in 1912. Sugar shipments, which were the leading factor in this decline, show a falling off approximating \$5,000,000 in value.

Steady and encouraging progress was made during the year in education; especially in the higher standard of instruction in English and in the better school buildings and grounds.

Porto Rican trade fell off last year \$6,026,411 in imports and \$601,548 in exports out of a total trade of \$86,903,627.

Only 39.9 per cent of the 390,000 persons of school age in Porto Rico attended school but even at that the total enrollment was 161,785, compared with 44,861 at the close of the Spanish regime. In 1910 over 68 per cent of the total electorate were illiterate.

## WINS HER WAY OUT OF PRISON

London, Dec. 8.—Mrs. Emmeline Pankhurst, the militant suffragist leader, won her way out of prison again by adopting her usual tactics of a hunger strike. She was released from Exeter jail on a seven-day license.

The dean of the cathedral at Exeter assented at the services to a request that a prayer for Mrs. Pankhurst be recited. The congregation was accordingly invited to pray "for Mrs. Emmeline Pankhurst."

The suffragists are determined not to allow their leader to be taken to prison again. The police are expected to adopt the usual course of waiting until the woman is well enough to resume the serving of the sentence of three years' imprisonment for inciting her followers to the destruction of property, and then arrest her. Announcement of this determination on the part of her followers was made at a big meeting in a suburban theater, "General" Flora Drummond made a speech, in which she said: "We swear here and now that the government

shall never, never again lay hands on Mrs. Pankhurst. We shall form a bodyguard and are ready to face even a battleship."

Suffragists made their customary interruptions of the service at St. Paul's cathedral. The officiating clergyman halted the service and permitted the suffragists to chant their prayer for Mrs. Pankhurst and reel off the usual suffrage advertising matter. Then the service was resumed as if nothing had happened.

Mrs. Pankhurst was driven to a hotel. She appeared very weak and immediately retired to bed, in charge of a nurse. Mrs. Pankhurst is liberated on seven days' license. She intends to proceed to London at the earliest possible moment.

## RAID ON CAFE

Cleveland, O., Dec. 8.—A test suit to determine the extent of the rights of the city in enforcing the Sunday closing law will be the outcome of a raid made by the police upon Gillsey Hotel cafe. A party of eight was found partaking of an after-theater supper. The police claim that cafes and grills can not operate as eating houses after midnight, and that all adjuncts of the bar must be closed as well as the bar. The hotel management will contend that if this be true no eating house should be allowed to remain open after midnight.

## A LIVE CORPSE

Chester, Pa., Dec. 8.—Twice pronounced dead, once by a physician, Charles Hughes, a guard, is still alive. A week ago a nurse who was in charge of Hughes summoned members of his family and they watched as he apparently breathed his last. An undertaker was summoned. He noticed a slight twitching in the man's arm and called the nurse, who restored him to consciousness. Last night Hughes sank into unconsciousness. A physician pronounced him dead and again the undertaker was summoned. While the physician was bending over the supposed dead man he received a kick in the stomach that convinced him Mr. Hughes was no dead one. Restoratives were applied and the patient was revived. The doctors think he has a good chance to recover.

## UNIQUE WAY OF MAKING MONEY

Spokane, Wash., Dec. 8.—Gladys Eaton, a young woman residing at Palouse Falls, 75 miles southwest of Spokane, has rather a unique way of making her pin money. She traps and poisons coyotes for the bounty and their fur. She says she has been quite successful and is making considerable money, shipping the hides to a fur company and securing one dollar bounty for each animal killed and presented to the county auditor.

Miss Eaton carries a small caliber rifle with which she kills her game after it has been trapped. "I am not a very good marksman and sometimes I have to shoot two or three times to kill them," says Miss Eaton.

She intends to continue her novel money-making venture throughout the winter and looks for better success during the cold weather, as feed for the animals will be more scarce.

## 200 ARE SAVED BY WIRELESS

Norfolk, Va., Dec. 8.—Nearly 200 passengers were taken off the steamer Rio Grande at sea while the big ship was on fire and thought to be in danger. The rescue was made by the British steamer Swanmore. The latter steamer heard the Rio Grande's wireless call for assistance at 2 a. m. and went immediately to her side. She was almost alongside the burning vessel at 4, and in response to signals from the Rio Grande, lowered lifeboats and sent them to the burning ship.

Wireless reports state that after the Swanmore had taken all the passengers on board her crew helped to fight the fire on the Rio Grande.

The rescue was made before daylight in midocean, and was, marine men say, the most thrilling recorded in some time. The fact that not a boat was swamped and not a single life lost is, under the circumstances, almost miraculous, old mariners declare.

### GUARDING AGAINST CROUP.

The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. I give them Foley's Honey and Tar Compound and in every instance they get prompt relief and are soon cured. We keep it at home and prevent croup." Blackmer & Tanquary, adv.

Advice is a mighty poor consolation to a man who needs a breakfast.

## PUBLIC HEARINGS BEGIN TOMORROW

Washington, Dec. 8.—Public hearings will begin tomorrow before the house judiciary committee on bills proposing supplementary anti-trust legislation. While these hearings are to be held as a matter of form, Democratic leaders frankly acknowledge that serious effort will not be made to frame a program of anti-trust legislation until the president himself communicates his views to congress. In the meantime Chairman Clayton and his Democratic associates will discuss the question with the president. A conference for Wednesday has been arranged in which the president will be joined by Chairman Clayton and others who will bear the responsibility of putting into form such legislation as may be recommended by the president.

After the president's special message has been received the attorney general will undoubtedly be asked to amplify the matter contained in the message.

## WARD IS DEAD

Chicago, Dec. 8.—Aaron Montgomery Ward, who rose from a day laborer to the presidency of a mail order house, died at his residence at Highland Park. The multimillionaire was 70 years old. Death resulted from a complication of diseases which developed after two falls. About two years ago Mr. Ward slipped on the running board of an automobile at Pasadena, Cal., and broke one arm and a shoulder blade. Six weeks ago he fell in his home and fractured his right hip. The kidneys were injured and pneumonia set in. Mr. Ward was born at Chatham, N. J., Feb. 17, 1843, the family coming west when he was 8 years old. He advanced himself by his own endeavors until at his death his wealth is reliably estimated at \$15,000,000.

## IN ENGLAND

London, Dec. 8.—Mr. and Mrs. Francis B. Sayre, President Wilson's son-in-law and daughter, on their arrival in London went at once by automobile to the home of Ambassador and Mrs. Bage by Grosvenor square. Mr. Sayre asked to be excused from seeing reporters, saying: "We are simply a honeymoon couple, not official visitors. I don't know anything worth while saying to the representatives of the press. That's the reason we did not see reporters at home." The couple had a fair voyage despite several days of stormy weather. They spent much of the time on deck and mixed unreservedly among the passengers.

## BLIZZARD SWEPT

Cleveland, O., Dec. 8.—A storm that for a time was strongly reminiscent of the blizzard of Nov. 9 struck Cleveland yesterday. A howling wind out of the northwest, accompanied by snow, prevailed all day, and while it caused no trouble ashore, whipped Lake Erie into a fury. A derrick scow belonging to the Great Lakes Dredge and Dock company broke away from its anchor off East Seventieth street and overturned. Six men aboard were thrown into the water, but managed to swim ashore.

**FOUR SHOT IN NIGHT ATTACK**

Calumet, Mich., Dec. 8.—Arthur and Harry James were killed, Thomas Dally was fatally wounded and Mary Nicholson was seriously injured by rifle bullets fired into the apartment house in which they lived. The James brothers came here from Toronto, Canada, and obtained employment in the Copper Range Consolidated mine, whose men are among those on strike. They stopped with Dally, a miner and a boarding-house keeper. Miss Nicholson lived with her father, who occupied the other side of the Dally apartment house.

All of the victims were in bed when shot. Three kinds of rifle bullets were imbedded in the walls of the house, and the difference in style of bullets led to the belief that at least three men fired the 10 or 12 shots. Six men are under arrest on suspicion.

The murders aroused great indignation throughout the strike zone and mass meetings were held in different places. Resolutions were adopted demanding that the sheriff use all means to bring the lawbreakers to justice and urging all law-abiding citizens to unite in giving peace officers assistance in restoring normal conditions to the strike district.

The strikers held meetings and speakers exhorted the men to stick to the Western Federation of Miners and to be prepared to defend their homes from raids from officers.

Dr. Edwards, a practicing physician for 17 years and calomel's old enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark-brown mouth" now and then—a bad breath—a dull tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

**HERMAN AFTER MANAGER FOR REDS**

New York, Dec. 8.—Baseball men from all over the country are arriving here. The International league is holding its annual fall meeting at the Hotel Victoria today and the National league will convene at the Waldorf-Astoria tomorrow. Garry Herrmann, president of the Cincinnati Reds, who is trying to effect a trade for Joe Tinker and to secure a new manager for the team, is registered at the Waldorf. In an interview Herrmann said:

"So far I have received only one proposition for Tinker and that was from the Philadelphia club, which offered Knabe and Doolan for Tinker and Groh. I turned down this offer because the Reds could not afford to let Groh get away. Why, Groh is a better ball player than Knabe right now. If we traded him the Reds would be greatly weakened."

"The selection of a new manager for the Reds depends entirely on the proposed Tinker deal, which may or may not be pulled off this week. No, we have not made an offer to Mordecai Brown or in fact to anybody. We are waiting for developments. One thing I wish would be made clear, and that is, the Reds must obtain a first-class shortstop to fill Tinker's place. We have decided to get rid of Tinker, if possible, but you can say that we will not accept a cash offer for him, even though we value his release at \$20,000."

"Will Governor Tener be elected president of the National league on Tuesday?" asked the reporter.

"Sure thing," replied Herrmann. "He will receive a unanimous vote. His election will be a benefit to the league and to organized baseball."

#### AFTER SICKNESS.

Mrs. Gardner Tells How to Restore  
One's Strength.

So many people are asking how to  
recover their strength after severe  
sickness that we are publishing this  
information for their benefit.

After grippe, pleurisy, pneumonia  
or any illness what you need is new  
strength and better blood.

The most certain way to get this  
is by taking Vinol, our delicious cod  
liver and iron preparation.

Mrs. M. T. Gardner, Chicago, Ill.,  
says: "After a very serious opera-  
tion I was a total invalid for nearly  
a year and a convalescent for months  
thereafter, I gave the remedies of a  
number of eminent specialists a thor-  
ough trial, but without deriving the  
slightest benefit. Vinol was recom-  
mended. Without the least faith in  
the merits of the medicine, I took it  
faithfully, and it seems to bring  
back the old color to my cheeks and  
the elasticity to my step which I had  
despaired of ever recovering. I can  
say, conscientiously, that for nervous,  
run-down people, Vinol is an excel-  
lent remedy."

Try a bottle of Vinol. Your money  
will be returned if it does not restore  
your vitality and strength. Black-  
mer & Tanquary, Druggists, Wash-  
ington C. H., Ohio.

P. S. If you have Eczema try our  
Saxo Salve. We guarantee it. adv

#### ON A GOOSEBERRY JAG.

New Fruity Intoxicant Produces a  
Great Wallowing Power.

Fort Collins, Colo.—The weird dreams  
of the absinthe drinker have nothing  
on the peculiar effects of a new kind  
of jag inducer which has been dis-  
covered by some Russians who live  
near Loveland.

This new booze is a fermented  
gooseberry juice and while under its  
influence Henry Moser, a small Rus-  
sian, whipped Peter Kreig and George  
Addison, both of them six feet tall.

The battle took place at the home of  
Henry Schaffer, and in police court  
Moser gave a vivid description of the  
power he felt and told the court he  
was only sorry his legs were too short  
to make it possible for him to over-  
take Addison, who ran away before he  
was entirely knocked out.

#### LEAN MEN WICKED, HE SAYS.

"Laughter, Fat Man's Gift, the Mark  
of Humanity," Quayle Says.

Washington.—Bishop Quayle of the  
Methodist church has compiled some  
statistics on fat and lean men. He  
said:

"Man, when he is lean, takes him-  
self too seriously and squeaks when  
he walks. He is wicked and has not  
half the chance the fat man has of  
being good.

"Laughter, the gift of the fat man,  
is the mark of humanity.

"Men have not so much to laugh at,  
but women can laugh easier, for they  
have a subject—to wit, the men."
